

Virufy Privacy Policy

Last Updated: August 15th

1. General

The COVID Detection Foundation (“Virufy”, “we”, “us” or “our”) respects your privacy and is committed to processing your personal information in accordance with the law. This Privacy Policy (hereinafter the “Policy” or “Privacy Policy”) sets out how we use, store, disclose and process personal information that you provide to us when you participate in our research survey for the development of the app for smartphone or other device-based COVID-19 early detection (the “App”), or that we obtain through or in connection with the use of our website (www.virufy.org) (“Website”), or when you otherwise contact us and/or we collect your personal information.

For the purposes of the European General Data Protection Regulation 2016/679 (the “GDPR”), Virufy is the “data controller” of, and responsible for, your personal information collected in accordance with this Privacy Policy.

If you have any inquiries or complaints regarding our Privacy Policy, please contact us using the details below:

By email: study@virufy.org

2. What is “personal information”?

The term “personal information” as used in this Policy shall mean any information (including “personal data”, “health data” and “biometric information” as those terms may be defined) that actually enables, or is capable of enabling us to identify you, directly or indirectly, by reference to an identifier such as your name, age, gender, postal address, email address, location data, online identifier or one or more factors specific to you. We collect “biometric information” and health data, such as COVID-19 symptoms and related medical symptoms and respiratory conditions. Under the GDPR, “biometric data” and information about your health is referred to as “special category data”, and is deemed to be more sensitive than general personal information and requires more protection.

3. What data do we collect?

We may collect and process the following personal information about you:

- **Information you provide to us** – You provide us with your personal information in many ways, including by participating in the development of the App and assisting us with promoting the research of coughs through AI algorithms. Such personal information may include: your email address, phone number, age group, biological sex, location, smoking status, relevant medical conditions, relevant respiratory conditions, COVID-19 symptoms, COVID-19 testing results, the timeframe of your COVID-19 tests taken and onset of symptoms, calibration recording (e.g. speech), and cough sample recording. You may also provide us with your personal information when you fill in forms, request information, submit applications for job and volunteer opportunities posted on the Website or correspond with us by post, phone, email or otherwise. Such personal information may include: name, address, email address, telephone number, resume and cover letter, professional history, academic history/status, answers to questions about suitability for a position, interview notes related to job fitness and experience, professional references, professional and personal competencies, extracurricular activities and your correspondence with us.
- **Information we collect about you** - When you visit our Website we may collect information about your computer or device, including your IP address, operating system, browser information, information about your visit, your browsing history, and how you use our Website. These types of data are collected by cookies and related technologies, including Google Analytics and Hotjar. When you first access our Website from certain jurisdictions, you will receive a message advising you that cookies and similar technologies are in use. By clicking “accept cookies”, you signify that you understand and agree to the use of these technologies, as described in our Cookie Notice. For more information about our practices in this area, please see our Cookie Notice.

4. How do we use your data?

We will only process personal information in accordance with applicable law.

We may collect and process personal information and biometric and health information (deemed to be special category data under the GDPR) only where you have given your explicit consent via the Explicit Consent to Collect Personal Information and Participate in Research Form (such consent may be withdrawn at any time):

- To conduct research and develop the App for smartphones and other devices that use artificial intelligence to diagnose COVID-19;
- To train machine learning models to analyze your audio recordings in order to better determine signs of COVID-19;

- To conduct research and develop future applications that use artificial intelligence to diagnose and/or be used for other viruses and medical conditions;
- To train machine learning models to analyze your audio recordings in order to better determine early signs of and/or be used for other viruses and medical conditions; and
- To conduct demographic analysis of COVID cases and/or other medical research beneficial for the medical community.

We will process non-biometric personal information for the following purposes as necessary for certain legitimate interests, or where you have given your informed consent to such processing if required by applicable law (such consent can be withdrawn at any time):

- **Where you participate in our research projects** – so we can contact you by email and/or phone in relation to the cough sample you have donated, and to remind you to donate subsequent samples at regular intervals and/or to follow up on testing;
- **Where you are applying for a job or volunteer vacancy with us** – To assess your qualifications with respect to available positions within Virufy, to potentially review references and facilitate background screening and to decide whether to enter into a volunteer or employment relationship with you;
- To monitor quality control and ensure compliance with any and all applicable laws, regulations, codes and ordinances, for example, in response to a request from a court or regulatory body, where such request is made in accordance with the law;
- To resolve any disputes;
- As part of our efforts to keep our Website and App safe and secure;
- To administer our Website for internal business administration and operations, including troubleshooting, data analysis, testing, research, statistical and survey purposes; and
- To develop and improve our Website and App, for example, by reviewing visits to the Website and various subpages.

Subject to applicable laws, we may process your personal information in order to protect your vital interests or the vital interests of another person.

5. Data processing in the United States

If you are visiting our Website, and/or assisting with our research, or otherwise providing personal information to us from outside the U.S., be aware that your personal information may be transferred to, stored, and processed by us outside of the jurisdiction within which you are based.

6. Where is your data stored?

We use JotForms for research study data collection. JotForms complies with HIPAA by storing the data in a secure application with restricted access and controls. Your data will be stored with JotForms until it is downloaded by us. We will store the data in a database with restricted access.

Information supplied for volunteer and employment applications will be stored in a secured cloud data server only accessible by Virufy recruitment staff.

7. For how long is your data stored?

We will store your biometric and health information in a form that permits us to identify you for no longer than is necessary for the purposes for which the personal information is processed. For the avoidance of doubt, biometric and health data (which may or may not be anonymized) may be retained long term for future research studies into viruses and other medical conditions.

We will store personal information associated with job and volunteer applications and email communications, in a form that permits us to identify you, for no longer than is necessary for the purpose for which the personal information is processed. We store your personal information as necessary to comply with our legal obligations, resolve disputes, and enforce our agreements and rights. Otherwise, we will seek to delete your personal information within a reasonable timeframe upon request.

8. How is this data shared?

Broadly, your data comprises your consent from the Explicit Consent to Collect Personal Information and Participate in Research Form and the personal information (including the health and biometric information) provided by you. Access to your biometric and health data is restricted to our research team in the first instance and may also be shared with other researchers. We may distribute your personal information to partners for future research studies, in a form that may or may not identify you, and you hereby explicitly consent to this. We may also publish or present the results of this study containing your anonymous information. Your personal information may be released if required by the law.

We may also share your anonymized personal information in the following ways:

- As an open source dataset for usage by researchers globally to accelerate development of the solution.

We may also share your non-anonymized personal information in the following ways:

- With another legal entity, on a temporary or permanent basis, for the purposes of a joint venture, collaboration, financing, sale, merger, reorganization, change of legal form, dissolution or similar event. In the case of a merger or sale, your personal information may be permanently transferred to a successor company. If a change happens to our business, then the new owners may use your personal information in the same way as set out in this Statement.
- Where needed to enforce our rights, protect our property or protect the rights, or safety of Virufy and others, or to support external auditing, compliance and corporate governance functions.
- Public authorities where we are required by law to do so.
- If required, in order to receive legal advice.

9. International transfers of personal information

Where personal information relating to individuals based in the European Economic Area (“EEA”) is shared with a third party located in a non-EEA country that has not received an adequacy decision by the European Commission, we rely upon appropriate safeguards, such as the European Commission-approved Standard Contractual Clauses. Please contact study@virufy.org for a copy of the safeguards which we have put in place to protect your personal information and privacy rights in these circumstances.

10. How can you manage or delete your data?

You can manage or delete your data by contacting us with your verification number at study@virufy.org, with the subject “Data Privacy Concern: Verification Number.” The verification number is the special number we provided you on your successful completion of the JotForm survey.

11. European privacy rights

In certain circumstances, you may have the following rights in relation to your personal information:

- **Request access to your personal information.** You may have the right to request access to any personal information we hold about you as well as related data, including the purposes

for processing the personal information, the recipients or categories of recipients with whom the personal information has been shared, where possible, the period for which the personal information will be stored, the source of the personal information, and the existence of any automated decision making.

- **Request correction of your personal information.** You may have the right to obtain without undue delay the rectification of any inaccurate personal information we hold about you.
- **Request erasure of your personal information.** You may have the right to request that personal information held about you is deleted.
- **Request restriction of processing your personal information.** You may have the right to prevent or restrict processing of your personal information.
- **Request transfer of your personal information.** You may have the right to request transfer of your personal information directly to a third party where this is technically feasible.
- **Right to object.** You may have the right to object to the processing of your personal information when you have legitimate reasons to do so.
- **Right to withdraw consent.** Where processing is based on consent, you may have the right to withdraw such consent.

We aim to respond to requests made by you within one month, but may extend that period by two further months where necessary.

Where you believe that we have not complied with our obligation under this Privacy Statement or European data protection law, you have the right to make a complaint to an EU Supervisory Authority, such as the UK's Information Commissioner's Office.

To exercise the above-mentioned rights, please send an email with an enclosed copy of the frontside of your identity card to study@virufy.org. We reserve the right to request the provision of additional information necessary to confirm the identity of the enquirer.

12. Do not track signals

We do not respond to web browser “do not track” signals. As such, your navigation of our Website may be tracked as part of the gathering of quantitative user information. If you arrive at our Website by way of a link from a third party site that does respond to “do not track” requests, the recognition of any “do not track” request you have initiated will end as soon as you reach our Website.

13. Amendments to this Privacy Policy

We may amend this Policy at any time. Any changes we may make will be posted on this page, so please check back frequently. The most recent version of this Policy is reflected by the version date located at the top of this Policy.

14. How can you contact us with questions?

If you have any concerns relating to the privacy of your information, please contact us at study@virufy.org.

Thank you for donating your coughs to help stop COVID!
